## PRIME RATE OF THE MOZAMBICAN FINANCIAL SYSTEM

COMMUNIQUÉ No. 11/2025

## I. PRIME RATE OF THE MOZAMBICAN FINANCIAL SYSTEM

As part of implementing the Reference Rate Agreement of the Mozambican Banking System, the Mozambican Banking Association (AMB) announces the Reference Rate, the Cost Premium and the Prime Rate for December 2025, as described in the table below:

#### Prime Rate of the Mozambican Financial System (calculated by the BM and the AMB)

Description	Rate
Reference Rate* (calculated by the Bank of Mozambique)	9.60%
Cost Premium (calculated by the AMB)	6.20%
PRIME RATE OF THE MOZAMBICAN FINANCIAL SYSTEM	15.80%

<sup>\*</sup> The Reference Rate is calculated based on information relating to the period from the 26th of each month to the 25th of the following month.

The **Reference Rate** is the average rate measured by the volume of Interbank Money Market (IMM) overnight maturity transactions, namely (i) transactions between the BM and commercial banks at the MIMO policy rate, currently set at 9.50%, (ii) repo operations between commercial banks and (iii) lending between commercial banks. The Banco de Moçambique (BM) calculates the Reference Rate every month.

The Cost Premium is the margin representing the risk elements of banking activity not reflected in interbank market operations, which is added to the Reference Rate to make up the Prime Rate of the Mozambican financial system. The Cost Premium is calculated quarterly by the AMB based on a method that takes into account the country's rating, the credit default ratio, the cleaned-up credit ratio and the reserve ratio for liabilities in national currency. The Cost Premium arose from the AMB's assessment of these factors, as communicated to the Bank of Mozambique (BM) through the official letter 17/DIR/AMB/2021, of March 25.

The **Prime Rate of the Mozambican financial system** is the single reference rate for variable interest rate credit operations and results from the sum of the Reference Rate and the Cost Premium. This rate applies to contracted credit operations (new, renewals and renegotiations) between credit institutions and financial companies and their customers, plus a margin (spread), which is added to or subtracted from the Prime Rate, by analysing the risk of each particular credit category or operation.

The Reference Rate Agreement of the Mozambican banking system sets out to promote greater transparency in fixing variable interest rates in the market and improving the monetary policy transmission mechanism.

# II. Standardized Interest Rate Spreads

Credit institutions should widely disclose to their customers and the general public the standardized credit spread for each credit product category.

The Prime Rate and the Spread for December 2025 shall be added to each credit product category.

## 1. Standardized Interest Rate Spread of Commercial Banks

Loans to retail customers		Loans	T				
Institution	Housing	Consumption	Short-term loans (up to 1 year)	Long-term loans (over 1 year)	Leasing of movable assets	Leasing of real estate	
1. BCI	4.50%	4.50%	4.50%	5.25%	3.00%	4.50%	
2. MBIM	1.20%	4.00%	4.50%	1.78%	3.50%	1.20%	
3. Standard Bank	1.00%	6.27%	3.31%	3.20%	2.50%	-	
4. ABSA	2.75%	10.75%	3.00%	1.00%	5.00%	-	
5. Nedbank	2.50%	4.50%	5.00%	2.00%	2.50%	1.50%	
6. Moza Banco	5.00%	6.50%	2.00%	3.00%	5.00%	4.50%	
7. FNB	2.50%	8.00%	5.00%	4.00%	4.00%	3.50%	
8. Access Bank	4.00%	8.00%	3.00%	5.00%	4.00%	0.00%	
9. BNI	-	-	2.00%	4.00%	-	-	
10. Vista Bank	6.00%	10.00%	4.00%	3.00%	3.00%	3.00%	
11. Ecobank	-	N/A	N/A	N/A	-	-	
12. Big	-	-	5.00%	5.50%	-	-	
13. First Capital Bank	6.00%	12.00%	5.0%	6.00%	-	-	
14.UBA	2.00%	5.00%	4.00%	5.00%	-	-	

The spread shown in the table is indicative, as the granting of financing is subject to the internal risk analysis of each bank for measuring the borrower's debt capacity. Each bank reserves the right to apply different additional conditions, depending on the risk profile, business, and credit history and eventual protocols concluded with the customer or their institution. The maturity, the degree of collateral coverage and the business relationship time in all credit categories may vary depending on the risk assessment to be carried out by each bank.

## 2. Standardized Interest Rate Spread of Microfinance Institutions

Loans to retail customers								
Institution				Consumption				
mstitution	6M	12M	24M	36M	48M	60M	72M	84M
1. MyBucks Mozambique MCB, SA	44.95%	44.95%	42.00%	44.00%	34.00%	34.00%	32.00%	32.00%

3. Bayport	14.30%	30.94%	40.18%	43.30%	38.12%	33.31%	29.44%	28.43%
4. Banco Letshego	13.00%	13.00%	13.00%	13.00%	13.00%	13.00%	13.00%	13.00%
5. Socremo	44.00%	44.00%	44.00%	44.00%	N/A	N/A	N/A	N/A

Loans to retail customers		Loans to c			
Institution	Housing	Short-term loans (up to 1-year maturity)	Long-term loans (over 1-year maturity)	Leasing of movable assets	Leasing of real estate
MyBucks Mozambique MCB, SA	N/A	25.50%	25.50%	N/A	N/A
MAIS – Microbanco de Apoio aos Investimentos SA	5.83%	4.00%	4.25%	N/A	N/A
Socremo	44.00%	19.60%	19.60%	N/A	N/A
Banco Letshego	N/A	18.00%	18.00%	N/A	N/A

The spread shown in the table above is indicative and set for new operations and the standard conditions stated below, and the granting of financing is subject to internal risk analysis by each institution, so as to assess the debt capacity and risks associated with the borrower and the operation. Each institution reserves the right to implement any other conditions, with regard to the risk profile, business and credit history and any agreements signed with the client or his institution. The period, collateral coverage degree and duration of business relationship may vary in light of the risk assessment to be carried out by each institution, for all credit categories.

# III. Standardized conditions per credit category

## 1. Standardized conditions of commercial banks

## 1.1 General conditions applicable to all credit categories:

- a) The borrower must be a customer of the bank for at least 6 months, with a history of transactions;
- b) The borrower must have no record of incidents at the BM Central Credit Register nor incidents with the banking system at the date of the loan application;
- c) The borrower must submit a blank bill of exchange,

#### 1.2 Specific conditions applicable to each credit category:

.) II	· M · · · 20
a) Housing loans to retail customers:	<ul> <li>i. Maturity: 20 years</li> <li>ii. Type of collateral: mortgage of property, with a coverage of 120% of the amount to be financed, assessment of the</li> </ul>

# IV. Definition of terms and concepts (metainformation)

#### 1. Retail customers

The retail customer sector comprises customers who are resident legal persons (individuals or groups of individuals), which gather part or all of their income and assets and consume certain types of goods and services.

#### 2. Companies

The business sector comprises all entities (companies) that have been incorporated or registered in one of the commercial forms recognized in the Republic of Mozambique, whose key activity consists in the production of non-financial market goods and services. Besides commercial companies (as defined in the Commercial Code), individual entrepreneurs, associations and non-governmental organizations, political parties and public bodies are included in the business sector.

#### 3. Housing loans

Loan for the procurement of new housing, which is understood as being inhabited for the first time, regardless of the date of its construction.

#### 4. Consumer loans

Loan granted to retail customers for operations not related to their businesses or professions and exclusively concern credit used for the purchased of goods and/or services to be consumed solely by individuals. For example, credit for the acquisition of vehicles, furniture, appliances, computer equipment and own housing rehabilitation.

#### 5. Short-term loans (up to 1 year) to companies

Business loans with maturity of up to 1 year, for the procurement of money supply.

#### 6. Long-term loans (over 1 year) to companies

Loans granted for doing business with maturity of over 1 year for investment.

#### 7. Leasing of movable assets and real estate

Leasing is a loan operation granted to finance long-term investments in fixed assets (e.g. machinery and vehicles, buildings, and housing).
